

# Five Ways to Strengthen the Supply Chain

In 2020, McKinsey & Company asked 60 senior executives how they plan to increase the flexibility and resilience of their supply chains. Here are five of the approaches they plan to implement.

**70%**

will seek to reskill their labor force

**58%**

want to centralize supply chain planning

**53%**

expect to dual source raw materials

**40%**

will nearshore and increase the supplier base

**38%**

plan to regionalize their supply chain
