

**ATTACHMENT 2**

**CONTRACTOR’S PROPOSED TECHNICAL APPROACH TO WORK AND TASKS**

PRIDE is seeking consulting services for the following:

**a. U/AST On-going Compliance and Maintenance**

This includes the required activities and deliverables to ensure full compliance of U/ASTs, as well as evaluation, assessment and recommendations for future compliance or preventative maintenance services.

**b. Hazardous Material Management**

This includes the development or updating of existing facility-specific Hazardous Material Business Plans and evaluation, assessment and recommendations for future compliance and on-going management practices.

**c. Hazardous Waste Management**

This includes on-call services as needed during emergency hazardous waste scenarios, assessment, and recommendation for management hazardous waste during routine maintenance activities and training for on-site staff and service providers.

Consultants should complete the table below to describe the proposed technical approach to the work. Please add lines if additional tasks are required for compliance or maintenance purposes. **PRIDE expects Contractor to identify all the necessary services, tasks, and deliverables for compliance purposes.** Please use bullet format to describe the tasks and deliverables.
