

Your Next 3PL Service Provider is Already Staffed, Certified, and Ready

Fully Staffed and Operational — Delivering Immediate Social Impact from Day One

Whether you're scaling, replacing an underperforming supply chain and logistics provider, or planning a transition, you'll get access to fully operational 3PL services—no buildout required.

Our U.S.-based 3PL environment is ready for rapid onboarding, so you can perform from day one.

Go Live Faster with Zero Infrastructure Investment

Our turnkey 3PL service solution eliminates the delays and capital investment of building your own logistics infrastructure.

- No warehouse buildout required
- No WMS or system deployment delays
- Fully staffed and trained workforce in place
- Integrated technology environment ready for onboarding
- Proven onboarding model for rapid go-live

3PL Service Excellence with a Positive Social Impact

PRIDE Industries is the nation's largest employer of people with disabilities

We're also a \$500 million social enterprise with 4,000 employees—about half of whom have a disability.

Just 38% of working-age adults with disabilities have jobs, compared with 75% of nondisabled workers.

We're changing this.

How do we do it? We manage 140 million square feet of commercial and government facilities and manufacture more than 2 million products every year with 99.9% order accuracy while maintaining a safety record that's 30% better than the OSHA average.

FEATURED CUSTOMER HP Inc.

- Global 3PL partner
- 28-year partnership
- 60% cost savings
- 99.7% same-day shipping
- 99% on-time shipments
- HP Supplier of the Year + Sustainable Impact Award

"PRIDE Industries is a proactive partner who exceeds their performance targets. I'm in love with the mission and in love with their performance."

—Director, HP Inc.
