

Aerospace & Defense Manufacturing Excellence With a Positive Social Impact

U.S.-based, ITAR Registered, AS 9100/ISO 9001 and ISO 13485 Certified.
Recognized veteran employer.

Manufacturing and logistics processes that meet your needs for precision, durability, quality, and security.

Advanced Testing and Inspection

We have 3D X-ray, flying probe test, functional testing, ICT, conformal coating, automated programming, and automoptical inspection (AOI).

Cable and Harness Assembly

Whether for automated or manual tooling, we manufacture your cable or harness assembly to the highest standards.

Materials Management

We include procurement and materials management, vendor management, forecasting, and flexible demand and capacity planning.

Diverse Engineering Services

We offer a broad range of technical solutions, including DFM, DFT, prototyping, process analysis, and customized manufacturing.

Exceptional Customer Service

Our reps are accustomed to sensitive projects and are always available to modify product specs or production processes.

Full Regulatory Compliance

Our state-of-the-art facilities are ITAR Registered, AS 9100/ISO 9001 and ISO 13485 Certified.

State-of-the-art PCBA Manufacturing

Our surface mount technology (SMT) and mixed printed circuit board (PCB) assembly have RoHS and non-RoHS capabilities.

Full System Integration

Skilled technicians assemble and test your final product, ensuring that only properly finished and functioning products are shipped.

Data-Driven Manufacturing

DFM and DFT reports, combined with detailed BOM analyses, simplify production and ensure component availability.

Get a Social Marketing Edge Over Competitors

As a social enterprise, we create employment for people with disabilities and other workplace barriers. By partnering with us, companies boost their appeal to social impact investors, meet supplier diversity goals and gain customer appreciation through our co-marketing programs.

Partners Who Trust PRIDE Industries

A Recognized Veteran Employer

As a nonprofit social enterprise, we create employment for people with disabilities, veterans, former foster youth, and trafficking survivors. We are a recognized military veterans employer, and our operations and maintenance employees are a common sight at military bases across the country.
